

## TOP GRADE ELECTRONIC FUNGUS-FREE DRY BOX

- Protects against damage by high humidity
- Fully automatic and maintenance-free
- Low consumption and economical to operate
- Top quality construction and robust, lasts for years
- Plugs directly into household electrical socket without adapters
- Uses proprietary **FAST-DRI** technology

Value dry boxes are made from industrial grade steel and coated with 2 layers of epoxy powder to protect against corrosion.

Shelves are adjustable to suitable individual user's needs hence allowing maximum use of storage capacity.

Locks are provided on all doors to guard against mischief.

All glass surfaces are made from safety-tempered glass for added safety.

Value dry boxes are backed by our service centre in Singapore.
